9. Restricted Regulatory Reserve

The Insurance Regulatory Commission of Sri Lanka (IRCSL) implemented the Risk Based Capital (RBC) regime for insurers of Sri Lanka with effect from 1 January 2016. Accordingly, the policy liability valuation methodology transitioned from Net Premium Valuation (NPV) methodology to Gross Premium Valuation (GPV) methodology. This regime change resulted in reduction in policy liabilities leading to a significant increase in surplus, which was termed "One-off unallocated surplus". As per the IRCSL recommendations this surplus was quantified and held within the life fund up to 31 December 2016. In 2017 with the approval of the IRCSL the one-off surplus was transferred to shareholders fund.

The distribution of the one-off surplus to shareholders, held as part of the Restricted Regulatory Reserve, is subject to meeting governance requirements stipulated by the Insurance Regulatory Commission of Sri Lanka (IRCSL) and can only be released upon receiving approval from the IRCSL. The one-off surplus in the Shareholder Fund (SHF) will remain invested in financial assets as per the direction of IRCSL.

18. Events Occurring After the Reporting Date

No circumstances have occurred since the reporting date which would require adjustments or disclosure in the Interim Financial Statements other than the note 18.1.

Notes to the Financial Statements

18.1. Disclosure on Impact of Recent Economic Conditions

The Directors are continuously monitoring the existing and the anticipated effects of the economic volatility and the circumstances of the external environment.

The negative impact created through the Balance of Payments has led to temporary shortages in essential items in the market, specially fuel and medicine. In order to cope with the available foreign currency reserves and to manage the economic factors, Central Bank (CBSL) of Sri Lanka tightened the Monetary Policy. CBSL increased Standing Deposit Facility Rate (SDFR) and the Standing Lending Facility Rate (SLFR) by 100 basis points to 14.50 per cent and 15.50 per cent respectively. Accordingly, yields on government securities have also increased notably to reflect market conditions in view of the higher financing requirement of the Government. These changes will benefit the investment income due to increase in yields on the Government securities in time to come, while experiencing a negative impact due to adverse fluctuation in the market value of financial assets. Management has assessed and taken necessary steps to ensure the continuity of the business.

Therefore, given the Company's current financial performance, and the very strong position in regulatory capital adequacy, expected future performance based on internal budgeting and planning, the Financial Statements continue to be prepared on a going concern basis.
